### Personal Serviced SWPLA Questions Requested by Subcommittee

### Montana State Library January 25, 2013

What impact would not receiving the P.S. SWPLA have on your program in terms of: Impacts on staffing?

• Not receiving this funding would reduce the State Library's personal services budget by \$179,310 over the biennium or the equivalent of at least 1 FTE.

Impact on statutorily required responsibilities associated with your program?

• Loss of FTE would directly impact services to Montanans. Which programs to cut would be a decision made by the State Library Commission but, following the cut of 2.25 FTE in 2011, the State Library has no way to absorb cuts without reducing services.

### Long-term vacant:

- The State Library has no long-term vacant positions.
- FTE vacant during FY12 are now filled.
- Two positions became vacant in FY13; we are in the process of interviewing candidates currently.

Why are the positions vacant?

How was the funding used that was generated as a result of the vacancies?

- In FY12MSL reverted \$69,000 in general fund authority and \$30,500 if federal LSTA authority.
- Savings from FY13 vacancies is being applied to the required 4% vacancy savings.

### Vacancies in general:

What recruitment and retention issues is the program facing?

• MSL has difficultly recruiting and retaining certain professional and information technology positions due to lower than market salaries.

Is your program impacted by retirement in the next biennium?

• MSL has 21 employees eligible for retirement but how many may retire is unknown at this time.

Did the program have retirement payouts in FY 2012?

• Yes, the State Librarian retired.

If vacancy savings was more than 4% in FY 2012, what agency functions did not get done? (i.e. workload impacts, backlogs)

• MSL's vacancy savings was 6% in addition to the 4%. As a result, no cataloging of new materials occurred for 90% of the year, expansion of statewide programs for Montana libraries like Montana Library 2Go was slowed, outreach to state agencies and libraries to support the State Publications Depository program was significantly limited and information technology support was spread thin across the agency.

Broadband pay increases:

Why did your program provide broadband pay increases?

• In June 2012 the State Library Commission approved a new Broad Band Pay Plan Policy that adopted 80% of the 2008 market rate as entry level for salaries of State Library employees. The State Library's three lowest paid employees received raises to bring their salaries to entry level in order to comply with the policy.

(Discussion by agency has included relation to market midpoint, number given, additional info on recruitment and retention)

Does your program have impacts in relation to overtime?

• No, the State Library does not offer overtime pay.

Does your program incur comp time hours, and they significant for your program, and what are your agencies policies in relation to comp time?

• Some State Library staff does incur comp time. Managers must approve all comp time before it is earned. Every effort is made for employees to flex out additional time before comp time is accrued. The State Library Commission policy on comp time does not allow employees to accrue more that 120 of comp time at time but we actively manage comp time to keep accrued time to under 40 hours.

### FY 12 Increases:

- **22-3-115. Montana historical interpretation state special revenue account.** (1) There is a Montana historical interpretation state special revenue account within the state special revenue fund established in 17-2-102.
- (2) There must be paid into the Montana historical interpretation state special revenue account money allocated from the lodging facility use tax proceeds allocated by 15-65-121.
- (3) Money in the account is available to the Montana historical society by appropriation and must be used to pay costs associated with historical interpretation and the Robert Scriver collection.

  History: En. Sec. 1, Ch. 358, L. 2011.

### **Compiler's Comments:**

Effective Date: Section 4, Ch. 358, L. 2011, provided: "[This act] is effective July 1, 2011."

### Montana Arts Council (MAC) Personal Services SWPLA Questions Requested by Subcommittee

### What impact would not receiving the P.S. SWPLA have on your program in terms of:

Impacts on staffing?

• It would require elimination of an entire staff position, which brings us close to a 50% reduction in our original staffing level, or the elimination of an entire agency program. Staff was already reduced by 40% in 1997; we operate at a bare-bones level.

### Impact on statutorily required responsibilities associated with your program?

• Our statutory responsibility to promote arts in the state, which we do through arts education programming, will be impacted due to the elimination of an entire staff position (we only have seven staff) or an entire agency program.

### Long-term vacancies:

Why are the positions vacant? We do not have any long-term vacant positions. How was the funding used that was generated as a result of the vacancies? Not applicable.

### Vacancies in general:

### What recruitment and retention issues is the program facing?

- We have had a tough time recruiting and retaining our bookkeeper/administrative support position due to the diversity of duties and the low pay.
- In past years, there has been difficulty in recruiting and retaining program directors.
- Some agency staff are frequently head-hunted by other states or for other positions here in the state.
- In future years, recruitment will be difficult if pay rates are not comparable to what others earn in similar positions either in state government or in other markets hiring comparable positions.

### Is your program impacted by retirement in the next biennium?

• Six of seven FTE are eligible for retirement now, but none currently plan to do so at present.

### Did the program have retirement payouts in FY 2012? No.

If vacancy savings was more than 4% in FY12, what did not get done? Not applicable. Under 4%.

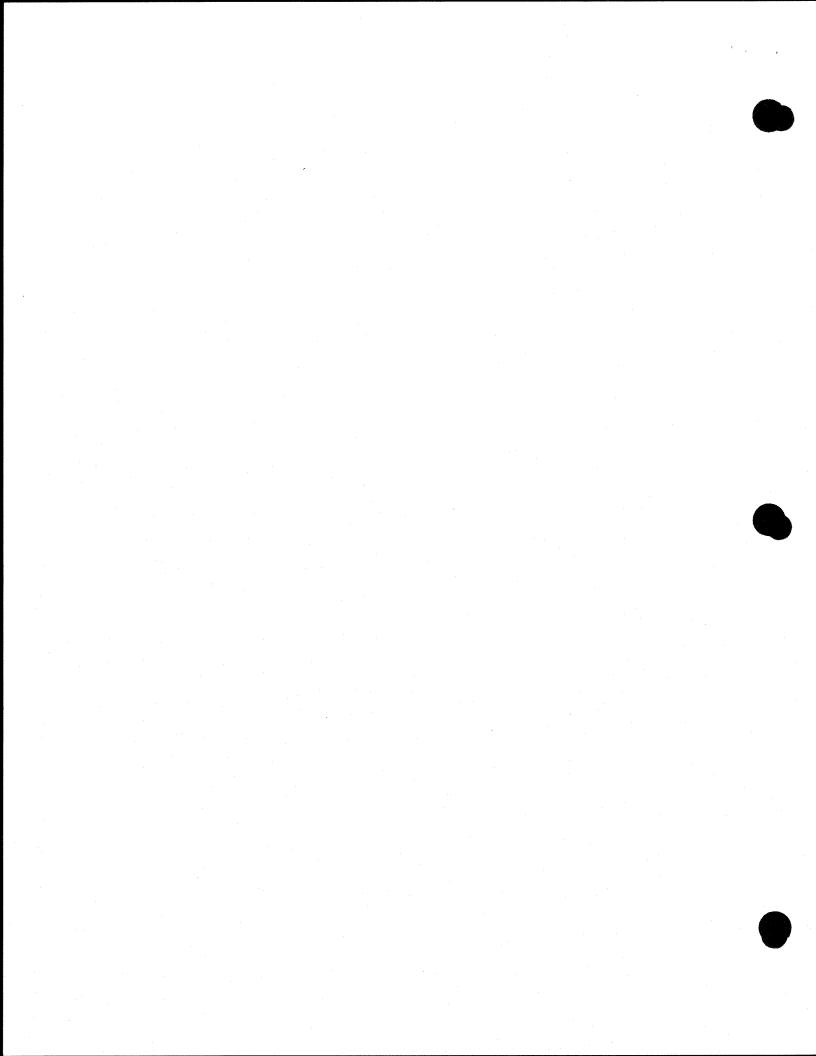

### Broadband pay increases: Why did your program provide broadband pay increases?

- The agency was required to develop a pay plan as required by state law #2-18-301, MCA.
- To do so, we updated all job descriptions to accurately reflect what each staff member is doing. This made *the following corrections necessary*:
  - o <u>2 reclassifications</u> were made because of a change in job duties
  - o <u>3 management supervision adjustments</u> were needed to reflect their actual oversight of other positions/workers
  - Only 1 market rate adjustment was made, and this was to increase a lower-paid executive assistant
  - o 1 position, the Executive Director, although recommended for an increase, did not accept one.
- MAC set its own pay ranges within pay bands, which we had authority to do providing we stayed within our appropriated funding. The Dept. of Administration and our council approved the plan.

Does your program have impacts in relation to overtime? No, see answer below regarding comp time.

### Does your program incur comp time hours, are they significant, and what are your policies?

• Employees can earn comp time when workload requires it, but is closely monitored and not significant to the agency. No employee may carry forward more than 120 hours of comp time.
